  - 180 closed its first special purpose fund and is now managing outside capital for first time in its history.
- During the Full Year of 2017:
  - 180's public portfolio accounted for over 90 percent of increases in asset value.

The Company also published a letter to shareholders that can be viewed at <http://ir.180degreecapital.com/letter-to-shareholders>.

"Despite a decline in NAV in the 4th quarter, TURN managed to increase its NAV for the full year of 2017. The increases in NAV and share price in 2017 were the first time either has occurred since 2010 and 2009, respectively. Given 90% of the increase in our NAV was derived from our new strategy, it is fair to say 180 has gotten off to a good start. As we focus our attention on 2018, we are going forward with a rigorous desire to build scale by accessing investors for managed funds and special purpose vehicles."

Mr. Rendino and Daniel Wolfe, President, Chief Financial Officer and Portfolio Manager, will host a conference call tomorrow, Tuesday, February 27, 2018, at 9am Eastern Time, to discuss the results from the fourth quarter of 2017 and for the full year.
